**SPEEDWAY AUSTRALIA
STRATEGIC PLAN
SUMMARY**

Speedway Australia Strategic Plan 2026–2030

Building a Safe, Sustainable and Nationally Aligned Future for Speedway

Speedway Australia's Strategic Plan 2026–2030 sets out a clear, nationally consistent approach to governing, developing and supporting speedway across Australia. As the recognised governing body, the organisation is focused on strengthening safety, integrity, participation and long-term sustainability, while supporting clubs, venues and participants at all levels of the sport.

Our Purpose, Vision and Mission

Purpose:

To foster a strong, safe and inclusive speedway community across Australia.

Vision:

A strong and sustainable future for speedway across Australia.

Mission:

To lead, govern, protect and advance speedway through national standards, strong safety and integrity frameworks, and practical support for clubs, venues, and participants.

Strategic Pillars

Our work is focused across three interconnected pillars:

1. Governance, Safety and Integrity

We are strengthening nationally consistent rules, policies and integrity systems to ensure safe and fair competition. This includes:

- Modernising the rulebook and policy framework
- Implementing a national venue safety and compliance framework
- Aligning with national integrity standards and partner organisations
- Establishing advisory and oversight mechanisms to support best practice governance.

2. Participation, Pathways and Community

We are growing participation and improving the experience of everyone involved in speedway by:

- Expanding inclusive and accessible participation programs
- Strengthening development pathways for officials and participants
- Supporting youth engagement and under-represented groups
- Enhancing the value and experience of licence and permit holders

3. Advocacy, Funding and Industry Support

We are supporting clubs, venues and the broader sport through:

- Targeted grant and rebate programs
- Support for accessing government and external funding
- Advocacy to strengthen recognition and investment in speedway
- Recognition programs to celebrate excellence and contribution

Organisational Capability

To deliver these priorities, Speedway Australia is strengthening its internal capability through:

- Digital transformation and improved national data systems
- More efficient and consistent service delivery
- Strong financial planning, governance and sustainability
- Disciplined investment management to support long-term outcomes

These enablers ensure the organisation is fit-for-purpose, accountable, and positioned for national leadership.

Governance, Accountability and Measurement

Delivery of the Strategic Plan is underpinned by strong governance and clear accountability:

- The Board provides oversight, approval and performance monitoring
- Management is responsible for delivery and implementation
- Progress is reported regularly against defined outcomes and milestones
- Strategy ownership is assigned to specific roles to ensure accountability

Performance is measured across key domains including:

- Safety and risk outcomes
- Governance and integrity
- Participation and retention
- Stakeholder experience
- Grants and funding impact
- Digital capability and operational performance
- Financial sustainability

Our Commitment

Through this Strategic Plan, Speedway Australia reaffirms its commitment to:

- Protecting participants and strengthening safety standards
- Delivering consistent, transparent and accountable governance
- Growing participation and building inclusive communities
- Supporting clubs and venues to thrive

Together, these actions will position speedway for a strong, sustainable and nationally aligned future.
