4.1.4. Where any confusion is possible as for which Race Car a flag signal is intended, the flag should be shown in conjunction with a board showing the Race Car number and where possible through the use of one-way communications.

4.1.5. In conjunction with flag signals, the following signboard signals may be shown:
- **REAR OF FIELD or ROF** - together with a Race Car number to avoid confusion;
- **COMPLETE RESTART** - for a restart in accordance with rule 4.12;
- **SINGLE FILE RESTART** - for a restart in accordance with rule 4.13.
4.2. DIRECTION OF RACING

The direction of racing is anticlockwise for the majority of Racing Divisions, however where applicable, the direction of racing will be determined by the supplementary regulations for the relevant Racing Division.

4.3. DUMMY GRID LINE UP

4.3.1. Race Cars should take up their correct position on the dummy grid ready to race before entering the Race Track. The Pit Marshall will close up any spaces left by any scratching by moving Race Cars forward in their rows.

**SSA – Refer Appendix 3, 4.3.1**

**Formula 500 - Refer Appendix 5, 4.3.1**

4.3.2. Any Driver whose Race Car is not positioned on the dummy grid and has notified the Pit Marshall, may be given two minutes to have their Race Car ready at the gate to go on to the Race Track. The two minute time commences when all the Race Cars in the Race are on the Race Track and moving.

**SKAA – Refer Appendix 4, 4.3.2**

4.3.3. No work or adjustment can be carried out on a Race Car while it is on the dummy grid. Any Race Car requiring any work or adjustment must be taken from the dummy grid and returned to the Pits. The driver may be disqualified from that event if not adhered to.

4.3.4. Once the Race Cars are on the Race Track, prior to the start of a Race and there is a withdrawal then the Race Cars move straight forward to fill the gap.

4.4. PUSH STARTS

4.4.1. Each Race Car is allowed one push start without penalty before the initial Race start and a push restart following any red light/flag stoppage where the incident did not involve that Race Car, and the car stopped due to the red light, or the Race Car was an innocent party in the stoppage.

**Sprintcars - Refer Appendix 1, 4.4**

**Speedcars - Refer Appendix 2 4.4**

4.4.2. For all Race Cars, when a Race Car is receiving a push start, if that Race Car does not start within one lap then the Race Car must be shown the mechanical defect flag and directed onto the Infield.
4.5. RACE STARTS

4.5.1. Drivers are responsible for knowing their grid positions and maintaining these positions until the green light/flag. Any Race Car that delays the start of a Race by more than two minutes will go rear of field. Any Race Car still not ready by the time the green is shown will be excluded from the Race.

SSA – Refer Appendix 3, 4.5.1

4.5.2. If a Race is to be gridded up using a pace car, once the pace car is established on the Race Track, no Race Car may pass the pace car (either on the Race Track or by running across the Infield) for the purpose of chasing and joining the field. Offending Drivers will be subject to a $100 fine. The correct method is to slow down and allow the field to catch up, and then merge into position.

4.5.3. When the field is formed up and a start is imminent, the yellow lights and flags will be switched off and withdrawn, during the first half of the final roll-up lap.

4.5.4. The Starting Line may be represented by a white line placed across the circuit at a location to be determined by the Chief Steward between turn 4 and the Finish Line. At a point determined by the Chief Steward (approximately mid-track), a white T line can be positioned which will intersect the Starting Line, running parallel to the circuit fence. These lines will be identified to the Drivers prior to the start of each Race.

4.5.5. The Race Car starting from position one will be the pole Race Car.

4.5.6. The Race Car starting on pole must pass beneath the T line and the Race Car starting on the outside of the front row must pass outside of the T line. Any Driver starting in the first row who crosses this T line will be shown the warning flag for the first offence and will go rear of field for the second offence.

4.5.7. The pole Race Car determines the speed of the start, but must bring the field to the acceleration zone at a constant moderate pace. The acceleration zone is defined as the zone between the exit of turn four (which may be marked by a white line) and the Finish Line. As the pole Race Car reaches the acceleration zone, or somewhere within this zone, the green light/flag will be shown.

4.5.8. A start will not be aborted, but if the Chief Steward declares a ‘no start’, the yellow light/flag signal will be given after about half a lap, and the field will be required to carefully slow down and grid up again.

4.5.9. Where time trials are used to determine starting positions in heat Races any Race Car that is unable to do a lap in time trials will automatically start rear of field in the heat Races for that Race Meeting.
4.5.10. Any Driver not taking their time trial in the correct time trial order has the option of completing one lap at the end of the time trial, with 11th the best possible qualifying position.

4.6. STARTING OPTION

4.6.1. In Race formats where the highest point scorer starts the feature Race on pole, the highest point scoring Driver may be given the option of starting in either the inside or outside position of the front row.

4.6.2. The option given to a Driver under rule 4.6.1 must be exercised prior to the Race Cars forming up on the dummy grid. There will be no change to any other starting positions.

Sprintcars – Refer Appendix 1, 4.6

4.7. BREAKING FORMATION OR JUMPING THE START

4.7.1. All Drivers must hold their correct positions and not accelerate until the green light/flag is shown. Any Race Car, including the pole Race Car, that breaks formation or jumps the start will be shown the warning flag or advised per their race receiver for the first offence and will go rear of field for the second offence. A car that baulks or slows down will also be considered to have broken the start.

4.7.2. If a Race Car breaks formation or jumps the start from within the field, but the Chief Steward wishes the Race to continue, the warning flag will be shown to the offending Driver and the Driver may be penalised. If the jumped start enabled Race Cars to be passed unfairly, the Driver will be put back two positions for each Race Car so passed. This penalty will be applied at the next stoppage, or if no stoppage, will be applied in the results.

4.8. RECKLESS OR DANGEROUS DRIVING

4.8.1. Except for specific Racing Divisions (fender benders, etc.), speedway racing is a non-contact sport. No Driver shall ever allow his or her Race Car to make deliberate, reckless or negligent contact with any other Race Car or driven dangerously either in roll-up laps, during the Event, after the Event or in the Pits.

4.8.2. Unless directed by an Official, any Driver who drives his or her Race Car at speed on the Infield will be considered to be driving dangerously.

4.8.3. Any Driver driving contrary to rules 4.8.1 and 4.8.2 will be excluded from the Race. For serious offences the Driver could also be subject to an Infringement Notice. As it is not possible to be certain whether contact between Race Cars has been deliberate, and so that it cannot be argued in a Driver’s defence.
at a dispute hearing or a subsequent appeal, an Infringement Notice relating to reckless or negligent driving will not use the word ‘deliberate’.

4.8.4. Any driver who accelerates their vehicle in a manner that instigates a break in traction, whilst the race is under caution (Yellow Flag/Light) may be penalised as per Rule 4.8.3. The Chief Steward and/or Clerk of Course/Race Director are the sole authority to allow permission to be in breach of this Rule.

4.9. PASSING

4.9.1. Any Driver who intends to overtake (pass) another Race Car, must first be reasonably sure that the passing move is possible without making contact with the other Race Car and then must execute the move as cleanly as possible.

4.9.2. Any Driver who becomes aware that another Race Car is making a passing move must not change line so as to inconvenience the passing Race Car, nor deprive that Race Car of adequate space on the Race Track. However, unless the Race Car being passed is a lapped car, there is no obligation for this Race Car to facilitate the passing move, the only obligation being not to change line in such a way that is intended to impede or to make the passing move more difficult.

4.9.3. If the Chief Steward believes that any passing move has been made contrary to rules 4.9.1 or 4.9.2, the offending Driver will be subject to a warning flag. This applies to both a Driver trying to pass and a Driver trying to impede the pass. Any Driver who makes gains by careless passing will be penalised two positions for each Race Car passed. This penalty will be applied at the next Race stoppage, or if no stoppage, will be applied in the results of the Race.

4.9.4. No Driver shall put any wheel on the Infield (below the Pole Line) when racing and in particular when to attempting a passing move. Any Driver who uses the Infield to pass another Race Car will be put back two positions for each Race Car passed. This penalty will be applied at the next Race stoppage, or if no stoppage, will be applied in the results of the Race. Sprintcars – Refer Appendix 1, 4.9.4

4.9.5. If a Driver persistently breaches rule 4.9.1, 4.9.2 or 4.9.4, a rear of field penalty will be applied at the next Race stoppage, or if no stoppage, applied in the results of the Race. At the Chief Steward’s discretion an offending Driver may be disqualified.

4.9.6. A summary of offences which will give rise to a loss of positions are listed in Annexure C of the Penalties Guideline, Part 4.
4.10. **RACE TRACK RE-ENTRY**

4.10.1. Any Driver who loses control to the Infield or who otherwise leaves the Race Track for any reason and wishes to re-join the Race may do so only with the utmost care and consideration for the safety of other Drivers. To avoid conflict, Race Cars must re-enter the Race Track at the most acute angle possible and re-entry on corners should be avoided.

4.10.2. If the Chief Steward believes that any Race Track re-entry has been careless or reckless, the Driver will be subject to a warning flag, a rear of field penalty or Disqualification and/or a fine, depending on the severity of the offence.

4.11. **RACE INCIDENTS AND STOPPAGES**

4.11.1. Following a crash or incident for which the Chief Steward orders yellow caution lights and flags, all Race Cars not directly involved in the incident must slow down to a safe speed and hold their position.

4.11.2. Any Race Car that passes Race Car(s) while rolling around the race Track under yellow lights may be subjected to being put back two positions for each Race Car passed.

4.11.3. Following a more serious crash of a Race Car rolling over or if an ambulance appears necessary the Chief Steward will order red lights and flags to stop the Race.

4.11.4. Once the red light/flag has been instigated, all Drivers will bring their Race Cars to an immediate safe stop. They are not to pass the accident scene or drive across the Infield past the accident. Any Driver failing to stop may incur a minimum fine of $100 and/or be sent to the rear of the field for the restart and may be disqualified from that Event and or Race Meeting.

4.11.5. Any Race Car stopping due to a red light, but not involved in the incident and not judged to be a contributing cause will be reinstated in the restarting order, regardless of whether a push start is required (although such a push start is subject to rule 4.4).  
**SSA – Refer Appendix 3, 4.11.5**

4.11.6. Any Race Car judged by the Chief Steward to be the absolute and sole cause of any stoppage will go to the very rear of field in the restart, regardless of whether the Race Car stopped and regardless of whether other Race Cars required a push start.  
**Lightning Sprints – Refer Appendix 7, 4.11**

4.11.7. If the Chief Steward is unable to determine the primary cause of an incident, or judges more than one Driver to be at fault, two or more Race Cars may be sent rear of field, with the Race Car suspected of being most at fault placed at the very rear. This is to
be applied regardless of whether any particular Race Car stopped or required a push start.

4.11.8. Any Driver considered by the Chief Steward to have been the primary cause of two stoppages in the same Race may be disqualified from that Race.

4.11.9. Any work on Race Cars during a yellow or red light stoppage may be carried out pursuant to rule 4.26 of these rules.

4.11.10. Any Race Car/Kart involved in an incident, but judged by the Chief Steward to be completely blameless, unless a Sprintcar, Wingless Sprint or a Speedcar requiring a push start, will be reinstated in the starting order.

4.11.11. Any Driver who fails to obey any signal or direction given by the Chief Steward or an Official appointed by the Chief Steward may be subject to a fine up to $1,000 and/or suspension up to 12 months and/or Disqualification.

4.12. COMPLETE RESTARTS

4.12.1. If a first lap stoppage has no obvious cause, except for too many cars/karts on the same area of Race Track, the Chief Steward may order a complete restart with no rear of field penalties applicable, except for Sprintcars, Wingless Sprints and Speedcars where push starts are required.

4.12.2. Once the race has started no Driver may switch cars.

4.12.3. If a stoppage occurs before the last running car has completed one full lap, a complete two wide restart (or three wide if applicable for a particular division) will be ordered with grid positions as for the initial start, but modified by exclusions and Race Cars sent rear of field. If there are any Race Cars not taking their original starting position then the Race Cars move straight forward to fill the gap.

4.12.4. Any Race Car being penalised with a rear of field penalty will restart at the rear of the longest row.

4.13. SINGLE FILE RESTARTS

4.13.1. If a stoppage occurs after the last running Race Car has completed at least one full lap, a single file restart will be ordered, with the starting order as for the previously recorded complete lap, but modified by exclusions and Race Cars sent rear of field.

4.13.2. For single file restarts a cone marker will be located at the Finish Line. The cone should be placed approximately mid track ensuring that there is sufficient room between the cone and the fence for Drivers to safely pass the cone while accelerating.

4.13.3. Any Driver refusing to accept the restart position directed by the Officials will be shown a warning flag for the first refusal, will be sent rear of field for the
second refusal and will be disqualified for the third refusal in any one Race.

4.13.4. Laps under the caution flag will not be counted on lap score sheets.

4.13.5. When the single file is correctly formed up and a start is imminent, the yellow lights will be switched off and flags withdrawn. The lead Race Car determines the speed of the start, but must bring the field to the cone marker at a constant moderate pace. As the leader reaches the cone marker, the green light/flag will be shown.

**Lightning Sprints – Refer Appendix 7, 4.13**

4.13.6. As the leader Race Car approaches the cone, no passing move may be commenced until the cone is passed. Any Race Car that jumps the start, drives in part or wholly beside another vehicle, hits the cone or passes it on the inside or passes another Race Car before the cone will be sent rear of field at the next stoppage, or if no stoppage, applied in the results of the Race.

**SSA – Refer Appendix 3A, 4.13.6**

**Late Models – Refer Appendix 3C, 4.13.6**

4.13.7. A Race Car that has not completed a recorded lap of the Race after any restart shall not re-join the Race at a later stage, including if the Driver was shown a mechanical defect flag.

4.13.8. If a Race is stopped with one lap remaining the restart will be run over two laps (i.e. green, white, chequered).

4.13.9. If at a restart, a Race Car has either of the outside tyres flat, the relevant Driver will be shown the mechanical defect flag (see 4.25).

**Sprintcars - Refer Appendix 1, 4.13**

### 4.14. WARNING FLAG

4.14.1. Any Driver who is judged by the Chief Steward during a Race to be driving in an overly aggressive manner, to have made careless contact with any other Race Car, to have changed line to impede a passing move or any other act of driving contrary to these rules, will be warned by one-way radio and/or warning flags.

4.14.2. If confusion is possible, the Race Car number will be shown with the flag.

4.14.3. Having received a warning flag, if a Driver continues to drive in a careless or contrary manner and receives a second warning via a warning flag or through their race receiver, the Driver will be either sent rear of field, or at the Chief Steward’s discretion may be given the black flag. The rear of field penalty will be applied at the next stoppage, or if no stoppage, applied in the results of the Race.
4.15. **REAR OF FIELD**

4.15.1. Any Driver who is shown the rear of field board (or instruction via receiver) during a Race stoppage must follow that instruction and go to the rear of the line up in the restart. If any confusion is possible, the Race Car number will be shown with the rear of field board.

4.15.2. When a Race Car on the lead lap goes to the rear of the field, it goes to the rear of the line-up which includes lapped Race Cars but will remain on the lead lap.

4.15.3. If more than one Race Car is sent rear of field, cars which either caused an incident or breached a racing rule, will be placed at the very rear. If more than one car is sent rear for these reasons, the cars will either be placed in their previous race order (at the very rear) or in an order determined by the Chief Steward.

Race Cars sent rear of field due to needing a push start only, will start at the rear, but in front of the other Race Cars which were deemed to have caused an incident or to have breached a racing rule.

4.15.4. Any Driver who refuses to go rear of field when ordered will be disqualified and shown the black flag (see 4.17).

4.16. **REAR OF FIELD OFFENCES**

A summary of offences for which a Driver may be sent to the rear of field are listed in Appendix 8 - Penalties Guideline.

4.17. **BLACK FLAG**

4.17.1. Any Driver who is shown the black disqualification flag, either during the Race or at a Race stoppage must immediately and safely withdraw from the Race. If any confusion arises, the Race Car number will be shown with the flag.

4.17.2. Any Driver who fails to comply with a black flag disqualification order or refuses to leave the Race Track when ordered will be served with an Infringement Notice. The minimum penalty for failure to comply with a black flag is a $300 fine and/or a one month Suspension.

4.17.3. Any Driver who continues to ignore the black flag will be fined an additional $100 per lap and/or the Driver and Race Car will be disqualified from the Race Meeting. The maximum penalty for failure to comply is a $2,000 fine and/or suspension of 2 years.

4.17.4. Any Driver who elects to dispute an Infringement Notice served due to their refusal to accept the
black flag can only dispute the refusal to accept the black flag. The Driver will be unable to dispute the incident that originally led to the black flag or use any aspects of that incident as a defence in the dispute hearing.

4.18. BLACK FLAG (DISQUALIFICATION) OFFENCES

A summary of offences for which a Driver may be shown a black flag, are listed in Appendix 8 - Penalties Guideline.

4.19. DROPPING OF DEBRIS

4.19.1. Any Race Car that drops any body part, suspension component or other debris on the Race Track which leads to a Race stoppage must go rear of field at the restart, unless it is judged by the Chief Steward not to be that Race Cars fault, in which case that Race Car may be restarted in its previous racing position.

4.19.2. Any Race Car that stops after running over another Race Car's debris will not be penalised.

4.19.3. If any part of the engine cover of a Race Car is lost or damaged and, in the Chief Steward’s opinion, compromises the Driver’s safety, the Race Car will be shown the Mechanical Defect flag.

4.20. LAPPED CARS

4.20.1. When a Race Car receives the lapping flag the Driver of that Race Car must expect to be lapped sometime within the next lap or soon after. The lapped Race Car must hold line (high line or low line) and must not race or impede the lapping Race Car or Race Cars. The lapping flag will continue to be shown to a Driver on each lap that being lapped by any other Race Car is likely.

Lightning Sprints – Refer Appendix 7, 4.13

4.20.2. If the Chief Steward believes that a lapped Race Car is ignoring the lapping flag by impeding lapping traffic or otherwise not complying with rule 4.20.1, the lapped-Driver may be shown the black flag.

4.20.3. Any damaged or disabled Race Car rolling around at a slow speed is to be shown the mechanical defect flag and the Race Car must go immediately to the Infield.

4.20.4. In all restarts, lapped Race Cars will retain their positions in the line-up as per the previously recorded lap or as directed by the Chief Steward.

Sprintcars - Refer Appendix 1, 4.20
Speedcars – Refer Appendix 2, 4.20
SSA – Refer Appendix 3, 4.20
V8 Dirt Modifieds – Refer Appendix 6, 4.20
4.21. STOPPING ON TRACK TO FORCE A STOPPAGE

Any Driver who, in the opinion of the Chief Steward, has purposely spun or stopped on the Race Track to force a Race stoppage will be automatically disqualified. The Chief Steward’s interpretation of a Driver’s intent in this regard is final and will not be subject to later discussion or complaint.

4.22. GETTING OUT OF CAR

4.22.1. Following a Race stoppage, until damaged Race Cars are removed to the Infield, Drivers are required to remain in their Race Cars unless there is the risk of fire, or other obvious inherent danger or there is a specific request to get out by the Clerk of the Course/Race Director or Infield Official.

4.22.2. Unless directed to do so with the approval of the Chief Steward, any Driver (with the exception of Sprintcar Drivers) who removes or breaks their seat belts or any safety apparel or safety equipment whilst in the confines of the Race Track shall be excluded from the Race. For a second offence during the same Race Meeting, a driver will be excluded from the remainder of the Race Meeting.

Sprintcars - Refer Appendix 1, 4.26
SKAA – Refer Appendix 4, 4.22.2

4.22.3. Any Driver who gets out of a Race Car to remonstrate or make any defamatory gesture to any Official or other Driver, or who parades in an undignified manner on the Race Track will receive an Infringement Notice and be excluded from the Race Meeting. A minimum fine of $100 up to maximum fine of $2,000 and/or up to a maximum 12 month Suspension applies.

4.22.4. After Race Cars have been removed to the Infield, Drivers may not approach any Official or other Driver for the purpose of abuse or protest. A Driver behaving contrary to this rule will receive an Infringement Notice and the penalties specified in rule 4.22.3 will apply.

4.22.5. If a car withdraws from a race and the car remains on the infield, the driver must remain with the car until it is removed, unless they otherwise have permission from the Chief Steward, or require medical attention. The driver may be subject to a minimum $100 fine and/or disqualified from the race meeting.

4.23. COMPLETION OF A RACE

4.23.1. When a Race Car has passed under the chequered flag, it must stop racing and slow down in a safe manner and complete a slowdown lap at a reasonable speed.

4.23.2. A Race is declared complete when the chequered flag has been displayed and the last Race Car running has passed under that flag. Race results will
be determined from the transponder records or lap scorer charts, based upon the order in which the Race Cars cross the Finish Line completing all the laps of the Race. The remainder of the field will be classified by the greater amount of laps completed and then the order in which they crossed the Finish Line on the last completed lap.

4.23.3. The Chief Steward will declare a Race complete once the lead Race Car has passed the chequered flag. If the yellow lights/flags are shown after the lead Race Car crosses the Finish Line for an incident all the Race Cars receiving the chequered flag will finish in the order they crossed the Finish Line. The remaining Race Cars (excluding those deemed to be unable to restart) will be recorded as finishing in the order of their last completed lap notwithstanding any penalties which could be applied by the Chief Steward.

SSA – Refer Appendix 3A, 4.23.3
F500 – Refer Appendix 3, 4.23.3

4.23.4. When a Race is completed, placing will be provisional until:
   a) The lap sheets and/or transponder lap charts have been checked by the Chief Steward;
   b) The Scrutineers have given clearance to each Race Car; and
   c) The Chief Steward has declared the results of the Race.

4.23.5. When a Race runs over more or less than the advertised number of laps and the chequered flag is shown, the Chief Steward will declare the Race positions in the order of the Race Cars at the chequered flag.

4.23.6. For all races, Race Cars that get the green flag to start the Race but are non-finishers may be eligible for points and/or prize money.

4.23.7. For heat Races, Race Cars that take the green flag to start the Race but are non-finishers, may be eligible for points. Otherwise, the driver must receive the chequered flag under their own power and have completed at least one half of Race distance to be eligible for points and/or prizemoney.

SSA – Refer Appendix 3, 4.23.7

4.23.8. Any Driver who has received the black flag or is otherwise disqualified from a Race is not eligible for points and/or prizemoney.

4.23.9. The Chief Steward may declare complete a final Race in which the lead Race Car has less than one lap to complete the Race or in a non-final Race of greater than eight laps in which the lead Race Car has less than two laps to complete the Race.

4.23.10. For heat races where simply receiving the green start flag does not automatically entitle them to receive points, a Driver receiving a mechanical defect flag or who voluntary withdraws and wishes to finish the Race, is permitted to re-join the Race (no push start)
to receive the chequered flag, after the last running Race Car has finished.

4.23.11. All prize money must be held until the Chief Steward has declared the results of the Race.

4.23.12. A Driver who is awarded a prize that becomes a disputed prize within 14 days of that Race must return that prize to the organisation awarding the prize. The Driver shall be notified of the reasons for the return of the prize. There shall be no grounds for return of a prize after 14 days have elapsed since the running of the Race.

4.24. **FEATURE RACES DECLARED SHORT**

4.24.1. A feature Race must be run over the advertised number of laps, except when rule 4.13.8 applies, unless it is required to be declared short by the Chief Steward due to:
   a) Weather or Race Track conditions;
   b) Time or noise curfew;
   c) A serious incident involving injury;
   d) Any request by the police; or
   e) Extreme or exceptional circumstances.

4.24.2. When feature Races are not completed:
   a) If the feature Race is declared with less than one-half of the scheduled laps completed, all prize-money and series points will be divided equally amongst all starters;
   b) If the feature Race is declared with at least one-half of the scheduled laps completed, all prize-money and series points will be fully allocated for placings scored as at the last completed lap, modified by any exclusions or rear of field relegations; and
   c) Any Race Cars involved in an incident/s at the time of the Race being declared must be cleared by a Scrutineer to be capable of restarting the balance of the nominated laps.

4.25. **MECHANICAL DEFECTS**

4.25.1. Whether by the Chief Steward’s own judgment or on the advice of the Infield Official, it is determined that a Race Car cannot safely continue to race, or for any reason is judged to be a potential hazard to other Competitors, the Driver will be shown the mechanical defect flag, together with the Race Car number, if required, to avoid confusion.

4.25.2. Upon receiving the mechanical defect flag, a Driver must immediately withdraw from the Race, using utmost caution. Any Driver refusing to withdraw when directed will be shown the black flag. Failure to obey the black flag will result in a penalty in accordance with rule 4.17.2 and 4.17.3.

4.25.3. Any outside tyre which is flat will be shown the mechanical defect flag.
4.26. WORKING ON CARS

4.26.1. At any Race stoppage all work must be performed only on the Infield at the designated work area.
4.26.2. If a Race Car requires repairs at a Race stoppage, a time limit of two minutes may be given from the time the Chief Steward approves the request.
4.26.3. If work has not been completed in time to restart with the field, the Race Car may re-join the Race at the rear of the field in a subsequent restart if no further completed laps have been recorded.
4.26.4. A wheel change (due to a flat tyre) is only permitted for Sprintcars, Speedcars, V8 Dirt Modifieds and Wingless Sprints during a red light/flag stoppage on the first lap of a State or National title or for other major or feature Events where this is approved by a supplementary regulation. Two minutes only will be given for the wheel change. Any Race Car that has had a wheel change will go rear of field in the restart.
4.26.5. If the Chief Steward has declared an “Open Red Light” situation during a red light/flag stoppage for a Sprintcars or Speedcars Race only three Pit Crew Members may work on the Race Car. Prior to the opening of the pit gate and allowing Pit Crew Members into the designated work area to work on during an “Open Red Light” situation the Chief Steward must consider factors such as time available, number of Race Cars involved in incident and OH&S responsibilities.
4.26.6. Following a Race stoppage when the Chief Steward has deemed the Race Track to be clear the yellow light/flag will signal for Race Cars to be started. Cars may be given two minutes from the time the last ready Race Car to be started has moved onto the Race Track. Race Cars delaying the restart beyond the two minutes and not ready by the time the green is shown shall be excluded from the Race.
4.26.7. With the exception of Sprintcars, Speedcars, V8 Dirt Modifieds and Wingless Sprints, the only work permitted on Race Cars after they enter the Race Track is to be done by Infield Officials and is limited to the removal of damaged body panels and the effecting of repairs using Basic Tools. The Driver must not break his seat belts or get out of the Race Car unless requested to do so by the Clerk of the Course/Race Director or Infield Official, otherwise the Race Car will be disqualified.

SKAA – Refer Appendix 4, 4.26
Formula 500 – Refer Appendix 5, 4.26.7

4.26.8. Infield Officials are not permitted to add fuel, oil or water, change wheels (except under rule 4.26.4), wash radiators, do any mechanical adjustments or change any setting.
4.26.9. If all Race Cars in an uncompleted Race leave the Race Track and return to the Pits due to any Race delay, when the Race resumes it will be using transponder/lap score placings as recorded at the stoppage. Race Cars must have been able to restart/re-join the Race at the point of stoppage.
Sprintcars – Refer Appendix 1, 4.26
Speedcars – Refer Appendix 2, 4.26

4.27. UNAUTHORISED ENTRY TO RACE TRACK

4.27.1. Any Pit Crew Member or other person, proven to be associated with a Driver or Race Car, who enters the Race Track under yellow or red light situations without the express authority of the Chief Steward will be subjected to a $500 fine. The associated Driver will also be fined $500 and/or disqualified from the Race Meeting at the discretion of the Chief Steward.

4.27.2. Subsequent incidents of unauthorised entry to the Race Track will result in a 12 month Suspension for the offender and a $1,000 fine and/or Disqualification from the Race Meeting for the Driver.

4.28. REFUELLING

No Infield refuelling is permitted unless provided for by a supplementary regulation approved pursuant to rule 1.4 and such approval will only be granted for special long distance Events. The refuelling procedures will be specifically detailed in the supplementary regulations and also reiterated during the Drivers Briefing.

Sprintcars - Refer Appendix 1, 4.28

   a) The substitute Race Car has been nominated for that Event;
   b) If the substitution occurs before the Event has begun, the Race Car starts from the Driver's original drawn position in the heats;
   c) If the substitution occurs after the Event has begun, the substitute Race Car starts from the rear of the field in its remaining Heat Races;
   d) If the substitution occurs after all the heats have been run, the substitute Race Car starts rear of the field in the final Race, providing that the Race Car has competed in at least one previous heat;
   e) The Chief Steward is notified and has given permission for the substitution;
   f) If more than one Race Car is used by one Driver in one Event, they are all subject to engine and/or fuel checks; and
g) Points will be allocated to the Driver.

4.30.2. At the discretion of the relevant Organising Body, dispensation can be provided if the Driver has driven in an affiliated class or a Racing Division determined by the Organising Body as providing requisite experience, in the current season or previous 12 months.

4.30.3. The previous year’s champion shall be allowed to defend the title but must compete in the heats. However, if the champion fails to qualify in this manner a rear of field start is permitted in their own or a substitute Race Car.

Such approval may only be given if use of the Prohibited Substance is for a therapeutic purpose and will not affect the Licence Holder’s judgement. In this respect, it should be noted that most of the psychiatric medications are liable to cause some degree of drowsiness or diminished concentration on performance and the individual response to these drugs is very difficult to predict and the drugs may be taken for many different conditions and in varying dosages.

3. All members of the SSA, State Associations and individual clubs must be aware that in certain circumstances where action has transpired to criminal meaning or a crime may have been committed, they may also be subjected to a criminal investigation by the relevant authority (police) over which the associations and/or club will have no control.

Marsh are the world’s largest insurance brokers and risk consultants with offices in all Australian States and Territories. Marsh’s expertise in Sport and in particular Motorsport, began in 1985 when they placed the policies firstly for the Formula 1 Grand Prix in Adelaide and subsequently Melbourne. Marsh have also arranged insurances for the Clipsal 500 event in Adelaide since 1999.

All tracks that choose to participate in the Speedway Australia scheme benefit with reduced premium costs. All participating tracks contribute to the policy according to their track rating and race categories permitted by Speedway Australia.

The main advantages of group buying over purchasing individual policies are:

- Group buying achieves costs savings.
- Cover is designed specifically for Speedway risks.

In addition to the cover provided, tracks are entitled to rain out or pre-event cancellation refund credits. Premiums are paid on a meeting to meeting basis without the need to pay a full annual premium in advance. In 2008, a Low Risk category was introduced to ease costs for smaller tracks who have low crowd attendances and less numbers of competitors.

WAIVERS

By signing waiver forms you do not sign away any rights, but agree not to take legal action against the promoter, track, officials or other drivers in the race. This does not limit anyone from making a claim under personal accident insurance that they held.

Speedway Australia encourages participation in speedway at all levels, including junior level events. As a Speedway competitor, you’ll experience the thrill of being in the driver’s seat at high speeds in intense competition. The cost of competing varies depending on the type of Speedway racing you would like to participate in – from varying licence costs to the cost of a car, travel and spare parts. Here are a few pointers to get you started in Speedway!

Speedway events are run on almost every weekend of the year, depending on which state you’re in, and range from grass roots events to major events such as World Series Sprintcars.

Attending different types of Speedway racing events will help you work out which discipline of the sport you would like to become involved in.

Once you’re ready to get involved, many clubs and tracks hold participation or “Come ‘n’ Try” days. Speedway Australia also offers One-Day Licences to competitors, so you can get out on the track without paying for a full season of racing. One-Day Licences are available for both junior and senior drivers.

BEFORE YOU START COMPETING

To ensure that every Speedway competitor is fit and capable to compete, all competitors must be licensed. This means that they have applied to Speedway Australia for a Speedway licence and have satisfied the licensing criteria by:

- Becoming a member of an association or club
- Applying for a Speedway Australia Licence
- Submitting a health statement
- Undertaking an approved medical examination
- Agreeing to abide by the Speedway Australia Drug & Alcohol Policy
- Agreeing to abide by the Speedway Australia Code of Conduct

For more information on upcoming events and getting involved in Speedway, contact your Speedway Australia State Branch (details at rear of this booklet) or Speedway Australia Head Office directly on (08) 8139 0777.

You can also find a Competitor Association or Track near you by visiting www.speedwayaustralia.org
Speedway Australia encourages good sportsmanship at all levels of competition.

Here is a guide to Codes of Conduct for your association, club, track, drivers, officials and parents. If you have any questions about the Code of Conduct, please contact Speedway Australia Head Office on (08) 8139 0777, or visit https://www.playbytherules.net.au/ for advice.

**Speedway Australia Encourages Sportsmanlike Conduct:**

- Always comply with the rules.
- Always compete to the best of your ability, with honour and integrity.
- Avoid arguing with stewards and officials – most stewards have volunteered their time and services to ensure your race runs smoothly and efficiently. Without their assistance the sport could not exist.
- Treat all competitors as you would like to be treated – do not interfere with, bully, intimidate or take advantage of any other participant. This includes using email or social media to bully or slander competitors.
- Avoid the use of intimidating, coarse or derogatory language.
- Place the safety and welfare of all participants above all else.
- Ensure the spirit of competition is maintained - An honest effort is as important as victory.
- Officials should be understanding and co-operative in the interpretation and application of rules and penalties.
- Officials should be impartial, consistent and objective at all times.
- Parents should encourage children to participate to the best of their ability - Focus upon the child’s performance rather than the overall outcome of the event.
- If you see something you consider ‘ugly parent syndrome’ behaviour, visit www.playbytherules.net.au and help to solve the problem.

**SPEEDWAY AUSTRALIA TRIBUNALS**

Speedway Australia expects all Licence holders to uphold the Code of Conduct and as such, treats allegations of poor conduct and bringing the sport of Speedway into disrepute very seriously. These matters may be referred to a disciplinary tribunal.
SOCIAL MEDIA

Speedway Australia encourages participation in online social media in a positive manner. The accessible nature of the internet however, can lend itself to the posting of threatening and derogatory material in the heat of the moment.

Once your thoughts and comments are published to the internet they are visible to the world - and they are permanent.

Speedway Australia takes all cases of threatening and derogatory behaviour seriously and will treat online matters as it would ‘real world’ bullying.

Breaching the Code of Conduct or bringing the sport of Speedway into disrepute online can lead to serious consequences, including tribunals, suspensions and the cancellation of the offender’s Speedway Australia licence.

If you have questions about what constitutes acceptable content and online behaviour, please contact Speedway Australia on (08) 8139 0777.

SPEEDWAY AUSTRALIA TRIBUNALS

Speedway fans can also get the latest video updates via the Speedway Australia / World Series Sprintcars YouTube channel.
In 2011/12, Speedway Australia successfully launched an online licensing system aimed at making Speedway licence applications simpler and faster than ever before.

As a result, peak licensing periods have been the most successful ever, featuring zero delays at the Speedway Australia Head Office and enabling competitors to obtain their competition licences quicker, and stay informed via email every step of the way.

In 2016/17 the Speedway Australia Online Licensing System continues to provide the fastest method of application.

Licence cards are posted back to the relevant association or club for the applicant for collection.

Clubs have access to their own portal of the Speedway Australia Online Licensing System, enabling the club to manage their own membership base. The infrastructure also tracks suspensions and expired licences.

Speedway Australia will continue to make hard copy paper application forms available in limited quantities for the 2017/18 season with the aim to phase out paper forms in the near future.

**Day Licences – ONLY $40**

A Speedway Australia Day Licence is only available for competition for SSA, B, E, V, A Class Sedans and Super Sedans and Late Model licenced Racing Divisions. They are available for all divisions for practices.

A maximum of 2 Day Licences may be issued to a competitor per year, after which the competitor must apply for a full Speedway Australia Licence.

All Speedway Australia Day Licences include Personal Accident Injury Insurance Cover for the duration of the licence.

ONE DAY PIT LICENCES

WHAT ARE THEY?
A One Day Pit Licence can be purchased at the track’s pit entry gate, and is available for anyone who does not have a current annual speedway licence.

The recipient of a One Day Pit Licence is granted personal accident insurance. Without either an annual Speedway Australia Licence or a One Day Pit Licence, you will not be protected by personal insurance in the event of an accident at the track.

WHY DO I NEED IT?
All people in the pits, on the track, on the infield or in any other hot areas of a Speedway venue must have a licence and personal accident cover as per Speedway Australia policies. In the event of an incident or accident where you may be injured and/or incur medical costs, you will have personal accident insurance to cover you.

Mechanics and crew members that require pit entry at multiple events throughout the year can avoid completing a One Day Licence form every time by purchasing a Speedway Australia Mechanic/Pit Entry Licence for $140 (valid for 12 months).

WHAT HAPPENS IF I DON’T HAVE ONE?
You will not be covered by any personal accident insurance cover if you enter a pit area without any form of Licence (One Day or Annual). You may also be refused entry to the venue’s pit area without a licence.
Since 2007, Speedway Australia has given the nation’s best young drivers the opportunity to participate in their Junior Driver Development Program. In 2010, Speedway Australia identified the need to once again improve in the area of junior development. As such, the Speedway Australia Rising Star Program was launched. In 2011 the Rising Star Program has taken a big step forward to work closer with the best young speedway talent in the country.

The Speedway Australia Rising Star program gives the opportunity for young drivers to improve themselves in a range of areas including fitness training, psychology and marketing and media training, which will assist them in formulating a pathway to achieve their speedway dream.

As an integral part of the program, each year the Speedway Australia Rising Star Program sends a selected number of drivers to attend a sporting development camp at the Australian Institute of Sport.

To be considered for the Speedway Australia Rising Star Program, drivers between 16 and 23 years of age are required to submit a detailed application addressing stringent selection criteria. To be selected, competitors need to display a record of high achievement in Speedway and have a long-term goal in the sport.

15 Drivers were selected for the 2017 Speedway Australia Rising Star Program from a range of states across Australia. The young drivers selected participated in an intensive 4 day camp at the AIS in Canberra as well as receiving marketing and press support from Speedway Australia, networking opportunities and much more to assist in developing their profile and racing career.

Speedway Australia joined the SFI Foundation in 2006 for the benefit of all Speedway Stakeholders in order to provide all divisions with the benefit of an international safety standard.

The SFI Foundation is a non-profit organisation based in the USA and was established to issue and administer standards for specialty/performance automotive and racing equipment. The SFI Foundation operates a test laboratory dedicated to the evaluation of safety products and has an extensive list of tested and approved racing apparel and equipment.

You can find out more about the SFI Foundation at www.sfifoundation.com
The Speedway Safety Advisory Committee (SSAC) was formed in 2006 to give advice and provide guidelines to the Speedway Australia Board on relevant aspects of safety and competition regulation in Australian Speedway.

It is designed to liaise closely with national and international technical associations and provide safety reports at the National Safety Conference.

Topics on their agenda include

- Personal safety equipment
- Seats and seatbelts
- Helmets and head restraints
- Track specifications
- Vehicle comparisons

The committee includes people from around Australia with a vast combined knowledge of the sport, who are also up to date with the latest safety trends and information.

For a list of current committee members, visit [www.speedwayaustralia.org](http://www.speedwayaustralia.org)
All Speedway Australia Insured Tracks undergo a safety inspection and assessment and are issued a rating from One Star (lowest) to Five Star (highest).

Star ratings are dependent on the types of safety facilities that the track has in place including track safety fence, construction material, catch fence posts and cables, dimensions and crowd control fence. Star Ratings are used to determine what level of Speedway Events may be held at the venue.

Track Inspections

As part of the Track Safety and Rating Scheme, track inspections are conducted at all venues every 2 years.

Speedway Australia in recent years has implemented a new discount rating scheme for tracks enabling them to apply for benefits in return for improving safety at their venue.

The data collected from tracks regarding safety will cover all aspects of the venue, from competitors and spectators to officials and volunteers, and will reward the venues with discounts and better ratings for complying with policies set out by Speedway Australia.
The Speedway Australia Silver Card was created in conjunction with Speedway Australia sanctioned speedways in 2001 to reward the champions of our national categories.

When a currently licensed driver wins an Australian Title in an officially sanctioned Speedway Australia National Division, they will be awarded with a Speedway Australia Silver Card.

The Silver Card entitles the holder to a complimentary 12 month Speedway Australia competitor licence in addition to one admission per event when competing at Speedway Australia tracks.

Speedway Australia offers grant funding to associations, clubs and venues on a number of levels to assist in the growth of the sport.

GRASSROOTS GRANTS

Speedway Australia is pleased to offer a limited number of grants to support Speedway clubs and associations in order to increase grass roots participation in the sport.

Speedway Associations and Clubs in all areas are eligible for a Grass Roots Event Grant, provided the events are held at a Speedway Australia Insured Track.

In 2014/15, Speedway Australia issued $10,000 worth of Grass Roots Events Grants. Examples of these grants were:

- The Manjimup Speedway Track was awarded an event grant to assist with the promotion of the 2015 “Quit” Street Stock Stampede held at Manjimup Speedway in January.

- The Hamilton Speedway was awarded an event grant to assist with the promotion and operation of the VSCF Victorian Junior Sedan Championships in January.

- Late Model Racing Queensland was awarded an event grant to assist with the promotion and operation of the Queensland Late Model Title, held on Anzac Day at Brisbane International Speedway.

TRACK GRANTS

Speedway Australia is committed to ensuring the sport maintains a high calibre of professionalism and racing, and that there is continued development of safer Speedway venues around Australia. To this end we offer for the awarding of a limited number of financial grants to tracks affiliated with Speedway Australia.

Consideration is given to track improvements such as enhancing safety fences, improving the safety of spectator areas, safety signage, flood lighting, installation of racing lights, upgrading fire safety equipment and other risk management improvements.
During 2015, Speedway Australia issued Risk Management Grants from the Speedway Australia/QBE $50,000 grants fund for projects at Speedway venues around the country.

These grants helped fund important track projects such as:
- Track Floodlights – Kalgoorlie Speedway, WA
- Catch-fence installation – Townsville Speedway, QLD
- Track Floodlights – Nyora Speedway, VIC
- Fence restoration – Westline Speedway, SA
- Ground erosion restoration – Bunbury Speedway, WA

This is just a small selection of the projects that were undertaken with assistance from the Speedway Australia/QBE grants fund for 2015.

For more information on this initiative and how to apply, contact the Speedway Australia Office on (08) 8139 0777.
World Series Sprintcars brings together the nation’s most talented sprintcar teams and drivers every year to compete for a rich pool of prize money and contingency awards.

Originally known as the Winfield Australian Sprintcar Championship, the WSS Company was created by a group of high profile Speedway identities in 1987 when it became clear that Australian sprintcar competitors would benefit greatly from a national competition. Former promoter John Hughes was appointed manager of the series, a role he held until the end of the 2000/2001 championship.

The first World Series Sprintcars championship season was held over 10 rounds, the first being held at the now defunct Claremont Speedway in Western Australia on November 20 & 21, 1987. George Tatnell who would later be crowned the first ever WSS Champion.

The WSS has become a showcase event for the sport of Speedway due the immense racing talent, the nightly drama and suspense, and a format that crowns a worthy champion who has excelled over a full season, not just a single race meeting.

Traditionally, the most competitive stretch of the World Series Sprintcars season occurs between Christmas and New Year, when “Speedweek” blazes a trail through South Australia and Victoria. Featuring 6 nights of racing in 7 days, the gruelling mini-series ups the ante by offering larger prize money pools, bigger fields and venues packed with vocal fans.
In 2006 Speedway Australia formed the National Speedway Induction Committee consisting of competitors, promoters, media members, historians and vintage association members from all mainland states of Australia to nominate and select eligible candidates for induction into the Hall of Fame.

In 2007, during a magical and emotional evening in the Bradman Room at the Adelaide Oval, the inaugural Hall Of Fame dinner saw 10 legendary drivers, promoters, car owners and constructors inducted into the Australian Speedway Hall of Fame.

10 years later there have now been seven induction ceremonies, with 56 speedway legends having received recognition.

To view a full list of all inductees to the Speedway Australia Hall of Fame visit our website www.speedwayaustralia.org or click here.
The Australian Speedway Awards are held annually, to celebrate the high achievers across the sport in each season.

A total of 13 Awards are presented in the following categories:

- Track of the Year
- Most Improved Track of the Year
- Official/Volunteer of the Year
